## Your Plant Insurance

Work Platforms are expensive to repair and replace. Total cost for the loss of a 15m Boom will be around £40,000 right now, enough to put a small company out of business

### **YOU MUST HAVE HIRED IN PLANT INSURANCE - FOR YOUR OWN PROTECTION**

**Please note;** Most Hired in Plant Insurance will have a £1,000 excess which makes it not economical as protection against damage charges. Hired in Plant insurance is often not economic in the case of low volume hirers.

If you do not have your own Hired In Plant Insurance cover the Lifterz can provide the following Protection for you

#### **Protect - Silver Cover** (More commonly known as "Damage Waiver").

##### **Included**

- i. Any charges for Accidental damage caused by IPAF trained operators working as an employee of the company which hired the equipment.
- ii. Impact or Collision damage to panels, base, handrails, wheels and tyres.
- iii. It also protects the customer from two thirds continuation hire charges during down-time on qualifying damage shown in this section i. & ii. above.

##### **Excluded**

- i. Damage caused by a third party or sub-contractor.
- ii. Damage caused to a third party.
- iii. Damage which is deemed to be not Accidental such as abuse or neglect.
- iv. Damage caused by neglect of daily maintenance checks such as battery and oil levels.
- v. Cleaning off of spillage and splashing of plaster, cement, paint and other surface coatings.
- vi. Damage caused by operators who do not hold a current relevant IPAF PAL Card.
- vii. Procedures not approved by the machine manufacturer.

#### **Protect - Gold Cover** (Total Loss Waiver - Including **Silver Cover** above)

##### **Included**

- i. Total Loss, either by theft or total write off through damage beyond economic repair.
- ii. Damage Waiver **Protect Silver Cover**.

##### **Excluded**

- i. Theft when left in an insecure or public place.
- ii. All the above under Excluded **Protect - Silver Cover** ( i – vii.)
- iii. The first £1,000 of any Total Loss Cost.

The choice before you.
